Jefferson DSL

On July 1, 2017, everything changed because Philadelphia University and Thomas Jefferson University became a single entity. All students, faculty and staff in the combined institution will graduate from and are now employed by Thomas Jefferson University. We use **Jefferson** as our conversation and reference name which makes our program the Jefferson Doctorate in Strategic Leadership (**Jefferson DSL**).

The most obvious change is that our physical identities as presented in websites, stationery, business cards, buildings, vehicles, etc. are being [rebranded with the new logo and name](#).

The former Philadelphia University campus where our program continues to be based is now the **Jefferson East Falls Campus**.

Jefferson East Falls Campus

The downtown campus is now the **Jefferson Center City Campus**.

There is a conversation that there will be a single website, but for now, typing "strategic leadership" into the Center City Campus website search engine sends you to the DSL program on the East Falls Campus.

Strategic Planning Thank You

During spring 2016, *Jefferson DSL* students worked with the [Arlen Specter Center for Public Service](#) to help them develop a strategic plan.

Here is correspondence received from the Specter Center leadership:

Larry,

Evan Laine, Faculty Director and I want to thank you and the DSL students (**Adena Johnston, William Myles, and Jim Plummer**) for leading us on an excellent planning path, and we also wanted to let you know that this effort led to some immediate tangible results; specifically, a donation from Shanin Specter, son of Senator Specter. Thanks to the conversations with Shanin that were part of the strategic planning design sessions about funding an award in his father's name, we secured from him a \$10,000 gift which will fund two research fellowships for the upcoming year. We are hoping this support will continue. We very much appreciate your contribution to this happy result!

Thanks again,
Karen

EDBAC Member Support

Jefferson DSL is a member of the [Executive DBA Council \(EDBAC\)](#) a global community of universities that offer professional executive doctorates.

Here is correspondence received from [Dr. Tom Mierzwa](#), EDBAC Board Member (2012-2016), professor in the Doctor of Management program at University of Maryland University College, and [Coursera lecturer in technology entrepreneurship](#).

Hi Larry,

Thanks for sharing your program's newsletter. This current one (and the many prior ones) are well put together and informative. They may serve as exemplars for what our program here should be doing to communicate with our alumni community.

Kind regards,
Tom

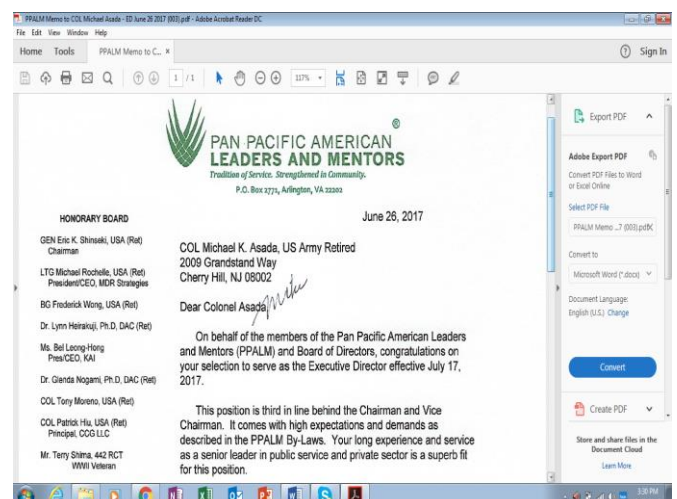

Jefferson DSL Student and Faculty Professional and Academic Activity

[Jefferson DSL Doctoral Candidate Michael Asada](#) has accepted the role of [Executive Director](#) of [Pan Pacific American Leaders and Mentors](#) a nonprofit organization with a mission to engage a network of Asian Americans and Pacific Islanders, military and civilian, committed to serving the Nation by providing leadership, education, mentoring and fellowship opportunities.

Michael Asada

Professor Larry Hirschhorn has written an essay, “James Comey’s fateful decision: Undermining the FBI while trying to protect it” on his [Learning from experience weblog](#).

Larry Hirschhorn

Larry writes,

This essay suggests that Comey, influenced by the wider Republican Party narrative that the election in particular and the “system” in general were rigged, came to believe that it was his task alone to prove that the system was fair and just. It also proposes that Comey had a valence for being the hero in dramas of his own making, shaped in part by the accolades he received for confronting President George Bush in 2004 over a wiretapping protocol. I suggest that this valence created a bias for action and led him to discount the impact of his decision, if Clinton should in fact lose the election, which of course happened.

Congratulations to **Jefferson DSL student Paula Smith-Benson** who has accepted the position of [COO at Women Veteran Command Center](#) (WVCC) which provides strength-based initiatives to empower,

educate, and enrich the lives of women veterans throughout their lifespan.

Paula Smith-Benson

We also congratulate **Jefferson DSL student Teresa Wolfgang** who was the Keynote Speaker at the [opening event and announcement of the WVCC](#).

Teresa Wolfgang

Congratulations to **Professor Les Sztandera** for supervision of students in his iMBA new product development course which resulted in [winning second place](#) in

the national [Advanced Textiles Student Design Challenge](#) for their reinvention of the medical face mask.

Les Sztandera

“I could not be happier about this placement, especially in such a competitive environment,” Sztandera said. “The student team has proved, yet again, that the [Nexus Learning](#) approach works remarkably well.”

This accomplishment marks the fourth team from Sztandera’s course that has placed in national design challenges over the past two years. A transdisciplinary team of students [won the top prize](#) in a U.S. Department of Defense challenge to redesign protective chemical-biological suits for military troops.

Most Influential People in Healthcare of 2017

08/21/17: PHILADELPHIA — Stephen K. Klasko, MD, MBA, President and CEO of Thomas Jefferson University and Jefferson

Health, is named to [Modern Healthcare’s 2017 list of the 100 Most Influential People in Healthcare](#). According to Modern Healthcare’s website, “The 100 Most Influential People in Healthcare awards and recognition program honors individuals in healthcare who are deemed by their peers and the senior editors of Modern Healthcare to be the most influential individuals in the industry, in terms of leadership and impact.”

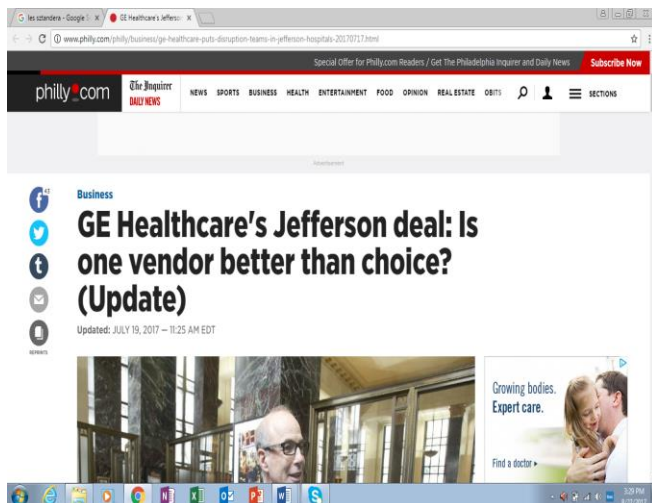

President Klasko

GE Healthcare's Jefferson deal

[GE Healthcare has begun moving 100 staffers into 13 area hospitals of the Jefferson Health network](#) and its Abington and Aria facilities, under a deal the partners say should generate more than \$500 million in savings and new revenue over the next eight years through increased use of GE data systems and health-care machinery.

“What’s really different is, these guys are not coming in as consultants. They are going to be embedded at our place,” said Stephen Klasko, Jefferson’s chief executive.

Jefferson Nexus Maximus 2017

In a four-day event from September 8 - 11, Jefferson students from East Falls and Center City, as well as students from Pace University, Aalto University (Finland), and Duoc UC in Chile, will be challenged to find solutions to one of the great challenges of our time.

D.R. Widder

As in previous years (the first event was held in September 2014), students will be broken into teams blending from first year to graduate level, with diverse disciplines on each team. This year the students will address the problems of *Refugees and Displaced Populations*, seeking to evaluate and innovate on the challenges faced.

In this annual event, “we are breaking new ground in the transdisciplinary and collaboration aspects of *Nexus Learning*,” said D.R. Widder, vice president for innovation and Steve Blank Innovation Term Chair.

Jefferson DSL Celebrates Canada 150

On July 1, as part of the global celebration of [Canada's 150th anniversary](#), (and because *Larry Starr* is Canadian), *Jefferson DSL* held a party for students and faculty. More than 30 current and new students, faculty, and guests attended.

Thanks to [Professor Tony Cosenza](#), we had a celebration cake to accompany the Molson Canadian beer and Canada Dry ginger ale.
